I'm Mari and I want to be a storm chaser.

[00:00:07.957]

Out of all, I like science because, in science,

[00:00:11.906]

you have a lot of things.

[00:00:14.431]

You can learn about the universe.

[00:00:16.009]

You can learn about the outside world.

[00:00:18.360]

You can learn about weather, which is my

[00:00:22.532]

most favorite thing of them all, weather and science.

[00:00:26.641]

But they brought in a meteorologist

[00:00:29.614]

during the class connect.

[00:00:31.219]

Man, a lot of people have questions about weather.

[00:00:34.595]

I really like how they bring in a meteorologist,

[00:00:38.549]

it's a parent as a meteorologist and they bring them in

[00:00:43.071]

and that's what brings on a lot of imagination in your mind

[00:00:48.224]

because you can imagine.

[00:00:49.665]

I want to be a storm chaser, chase tornadoes,

[00:00:52.110]

see how they form.

[00:00:54.850]

So, first, it's like this.

[00:00:56.696]

And then they go into this kind of rotation.

[00:00:59.748]

I just love storms, they're just amazing.

[00:01:02.236]
